

## **Ireka reach RM1.2b in awarded contracts**

**KUALA LUMPUR —** On the construction front, Ireka has projects approximately worth RM1.2 billion which will keep the company busy for the medium-term. The company, through its Infrastructure arm – Ireka Engineering & Construction Sdn Bhd, prefers to tender for projects where quality is the key prerequisite and where it can leverage on the skilled multi-disciplinary team within Ireka. The Company is expected to benefit from the country's growing construction and real estate sectors. On the real estate front, Ireka is expanding its product range into the mid-market segment serving the population.
