

# Ireka unit to complete maiden hospital project in Vietnam

**KUALA LUMPUR:** The City International Hospital managed by Ireka Corp Bhd's (Ireka) unit, Ireka Development Management Sdn Bhd, is slated to be completed by end-2012.

"Along with economic growth, social healthcare is one of the major concerns in Vietnam.

"Given the increasing demand for quality overseas medical treatment, the park will be the first integrated healthcare development in Vietnam, which will provide a comprehensive healthcare environment from facilities, hi-tech medical equipment to professional medical staff," said president and chief executive officer Lai Voon Hon in a statement yesterday.

The hospital was the first general

Given the increasing demand for quality overseas medical treatment, the park will be the first integrated healthcare development in Vietnam, which will provide a comprehensive healthcare environment from facilities, hi-tech medical equipment to professional medical staff.

hospital to be completed, within the 'Medical City' located in Vietnam's largest medical hub, the International Hi-Tech Healthcare Park.

The hospital, developed by Hoa Lam-Shangri-La Healthcare Ltd Liability Company, would eventually have other facilities such as laboratories, medical suites, a staff residential area, medical

exhibition centre and shopping mall, service apartments, international schools and a residents' clubhouse.

Ireka's associate company, Aseana Properties Ltd, held a majority stake in Hoa Lam-Shangri-La Healthcare Ltd Liability Company.

Currently, the hospital was

more than 50 per cent completed, with the bulk of the brick works completed.

Plaster works, mechanical and electrical services and the selection of architectural finishes were ongoing, whilst the selection and purchase of major medical equipment for the hospital were completed recently. — Bernama
